# Investment Philosophy

## Protecting Capital - DSD Mechanism

### DIVERSIFICATION

Three important risks : Governance, Technology and Business cycle - can be reduced only by Diversification. We invest across market cap, sectors, and companies to reduce company/sector specific risk.

### STAGGERED APPROACH

We build the portfolio over a period of time. We do not follow Model portfolio approach.

### DISCIPLINED EXIT STRATEGY

We have a disciplined Exit strategy. We sell/reduce due to rebalancing of the portfolio, change in growth assumption of our portfolio company, expensive valuations.

# Investment Philosophy

## Creating Wealth - 3M Approach

01

### Market Size

Market size determines size of opportunity. We prefer companies which are targeting large market size to generate exponential returns.

### Market Share

We buy the companies which are leaders in their sector as they are best positioned to navigate upturn and downturn of the economy.

02

03

### Margin Of Safety

Price is what you pay. Value is what you get. We buy the companies which are available at reasonable valuations.

# Quality

## Profit Propellers

800  
PAT > 50 cr

## Screening Stage

Companies which have a good corporate governance, strong business moats along with a reasonable profit size

## Risk Mitigators

300  
OCF/EBITDA, D/E, other filters

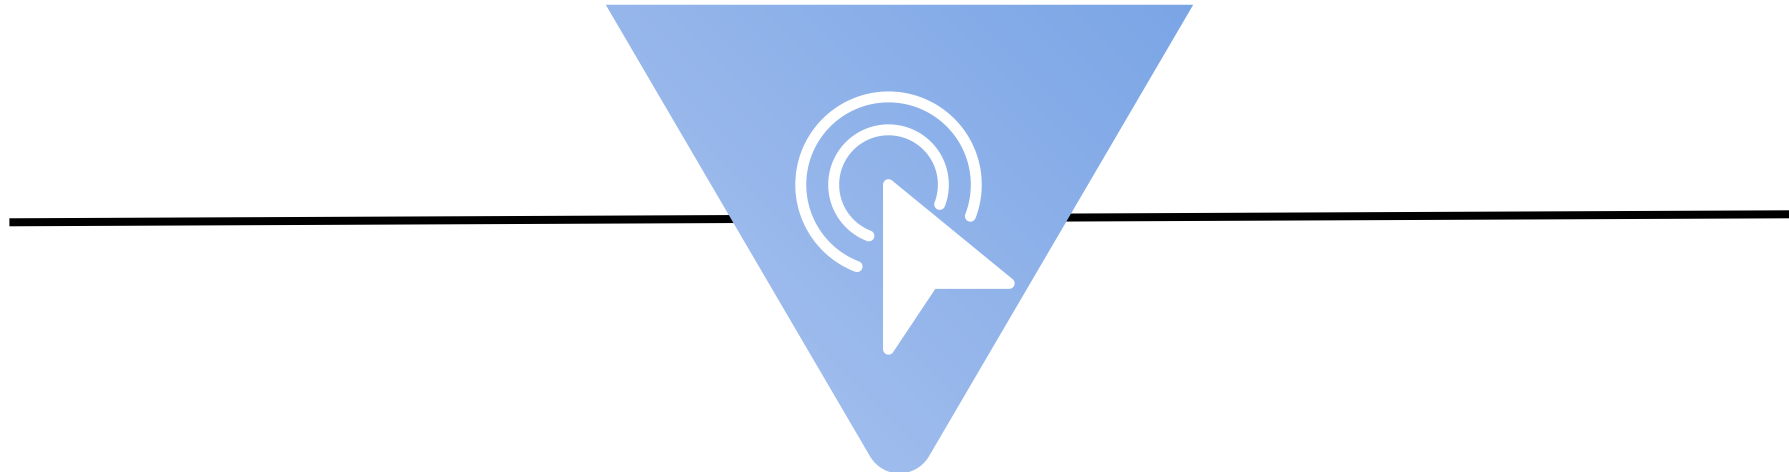

## Deep Dive Stage

Companies which are market leaders and effectively positioned to grow and multiply

## Alpha Producers

40-60

## Selection Stage

Companies with strong earnings growth prospects and right valuations

# Internal Checks

## Forensic Assessment

### Management Practices

To assess governance

### Quality of Cashflow

Ability to convert the revenue to cash and re-invest into the business

### Accounting Policies

Assess the consistency and fairness of the accounting policies

### Taxation Mischiefs

Identify the potential fraud

**13**

Such Forensic Parameters

# Internal Checks

## Longevity Assessment

### 8 Longevity Parameters

#### Longevity of business growth

Sustenance of revenue and earnings growth  
& Assessing competitive advantage

**Longevity of cashflow**  
Identify financial strength

**Longevity of return ratios**  
Gauging business profitability and efficiency

#### Longevity of reinvestment

Intensity to generate Self sustaining growth

# Exit Strategy

We exit when....

1

There is a need to rebalancing weights for risk management purposes

2

A company no longer meets our buy/hold criteria

3

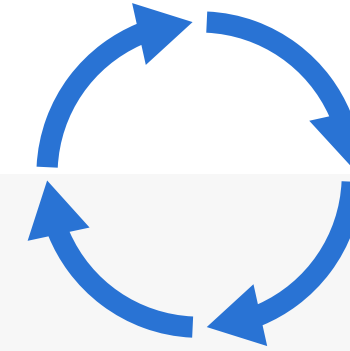

A company no longer meets our valuations criteria

4

There is no longer a durable double digit return expectation for a company's stock

5

There is a more compelling investment opportunity to fund

**The only constant is change. The average lifespan of a company listed on the S & P 500 has reduced from 90 years in 1935 to 18 years, as per a McKinsey report. We are agile, and active, never letting our guard down.**
