### Investment Philosophy Protecting Capital - DSD Mechanism

#### DIVERSIFICATION

Three important risks : Governance, Technology and Business cycle - can be reduced only by Diversification. We invest across market cap, sectors, and companies to reduce company/sector specific risk.

**STAGGERED APPROACH** 

We build the portfolio over a period of time. We do not follow Model portfolio approach.

DISCIPLINED EXIT STRATEGY We have a disciplined Exit strategy. We sell/reduce due to rebalancing of the portfolio, change in growth assumption of our portfolio company, expensive valuations.

### **Investment Philosophy Creating Wealth - 3M Approach**

### Market Size

Market size determines size of opportunity. We prefer companies which are targeting large market size to generate exponential returns.

### **Market Share**

We buy the companies which are leaders in their sector as they are best positioned to navigate upturn and downturn of the economy.

### **Margin Of Safety**

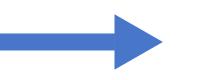

Price is what you pay. Value is what you get. We buy the companies which are available at reasonable valuations.

# **Investment Process: Simplified**

**Profit Propellers** 800 PAT > 50 cr

### **Risk Mitigators** 300

OCF/EBITDA, D/E, other filters

**Alpha Producers** 40-60

### **Screening Stage**

Companies which have a good corporate governance, strong business moats along with a reasonable profit size

### **Deep Dive Stage**

Companies which are market leaders and effectively positioned to grow and multiply

### **Selection Stage**

Companies with strong earnings growth prospects and right valuations

### Internal Checks **Forensic Assessment**

#### **Management Practices**

#### **Quality of Cashflow**

#### We exit when....

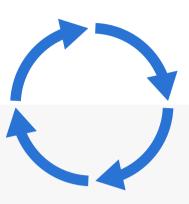

# **Exit Strategy**

| 1 | There is a need to rebalancing weights for risk management purposes                |
|---|--|
| 2 | A company no longer meets our buy/hold<br>criteria                                 |
| 3 | A company no longer meets our valuations criteria                                  |
| 4 | There is no longer a durable double digit return expectation for a company's stock |
| 5 | There is a more compelling investment opportunity to fund                          |

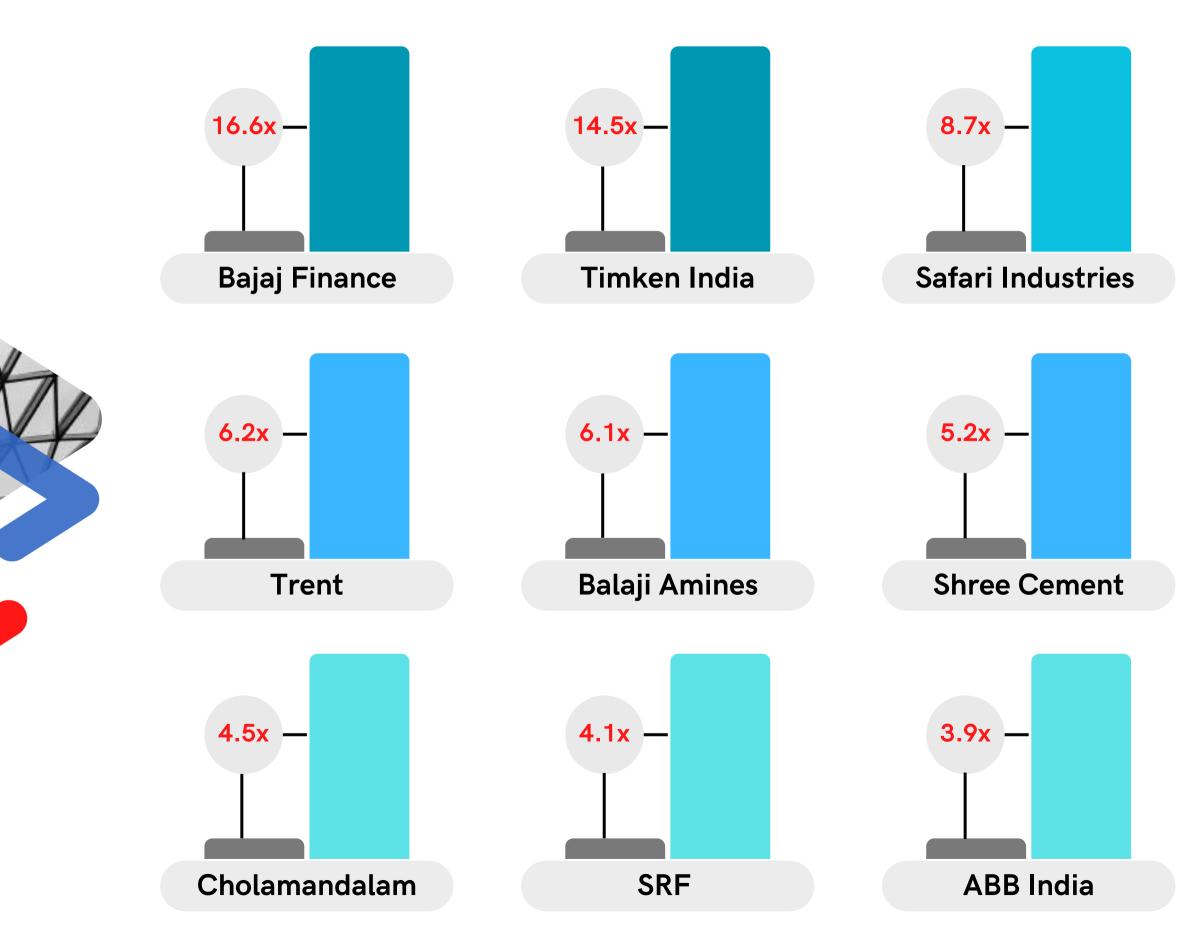

Protect Capital, Create Wealth

- The only constant is change.
- The average lifespan of a
- company listed on the S & P
- 500 has reduced from 90
- years in 1935 to 18 years, as
- per a McKinsey report. We are
- agile, and active, never letting our guard down.
